

4AA Lighthouse (Dual Blue)

Railroad Dual Beam Signal & Work Light

Blue signals must be displayed in accordance with §218.25, 218.27, or 218.29

As outlined by the US Department of Transportation: "Blue flag protection in the railroad industry provides safety to workers from the inadvertent movement of equipment on which they are working." "Blue signal means a clearly distinguishable blue flag by day... and a blue light at night." The new Lighthouse Dual Blue is a multi-functional personal lighting device that has a forward facing white LED and a rear facing blue LED. The right angle head and stainless steel pocket clip make this an ideal Blue Singal light for Railroad personnel.

- Choose between two high-intensity LED beams. Narrow / White beam forward facing or Wide / Blue backwards facing
- Pivoting Head for use as a hand-held flashlight
- Waterproof design for all weather use
- Stainless steel pocket clip for use as a right-angle light
- Powerful neodymium magnet attaches to any steel surface for use as a work light
- High impact ABS, polycarbonate and TPE rubber, construction for durability
- Non-slip rubber base for self-standing area light
- High visibility safety yellow case
- Over 8 hours illumination from 4 AA / LR6 Alkaline or Ultimate Lithium cells
